

To motivate and equip

NEET TV is a unique and innovative project focused on working with 16 -19 year olds in Knowsley who are currently Not in Education, Employment or Training (NEET). The aim of the project is to motivate and equip young people with skills to enhance their employability prospects.

Through a range of media based activities, young people on the project will learn the importance of Health and Safety in the workplace, time management skills, teamwork skills, communication skills, presentation skills and problem solving skills.

The young people on the programme will learn about different camera angles and their effects, lighting techniques, sound recording, video recording, interview skills, and editing media footage. In addition to this learners can achieve OCN (Open College Network) Credits in Developing Group and Teamwork Communication Skills.
